

Events Calendar

Updated May 7, 2009

| DATES | EVENT NAME | LOCATION | INFORMATION | WEB SITE |
|-----------------------|--|--|---|--|
| May 17-21, 2010 | 21st International Tug & Salvage Convention | Vancouver, CN | The program includes 33 papers covering key areas of interest and concern in the tug and salvage industries, from towage liabilities and the re-training of crews to operate the latest vessels, to environmental salvage and underwater survey methods. Five papers will address the latest green tug developments, while running parallel to that session will be papers on a highly topical subject from the world of salvage – that of co-operation in a crisis. | http://www.tugandsalvage.com/ITS2010_Home.asp |
| June 7-9, 2010 | 33rd AMOP Technical Seminar on Environmental Contamination and Response | Halifax, Nova Scotia, Canada | The AMOP Technical Seminar on Environmental Contamination and Response is an international forum on preventing, assessing, containing, and cleaning up spills of hazardous materials in every type of environment. It also deals with solutions for remediating and rehabilitating contaminated sites. AMOP is organized and sponsored by Environment Canada. | www.etc-cte.ec.gc.ca/news/conferences_e.html |
| June 8-10, 2010 | Joint Conference of Harbor Safety Committees and Area Maritime Security Committees | Jersey City, New Jersey | The Coast Guard will hold its first joint conference of the nation's Harbor Safety Committees (HSCs) and Area Maritime Security Committees (AMSCs), providing an opportunity for committees to engage in information exchange on current challenges, best practices, case studies, and lessons learned. The conference offers the opportunity for the committees to engage both public- and private-sector leaders on issues relating to marine transportation and harbor safety and security. | http://www.trb.org/MarineBoard/pages/335.aspx |
| June 29-July 1,2010 | Transforming the Marine Transportation System; A Vision for Research & Development | The Beckman Center of the National Academies, Irvine, California | The U.S. Marine Transportation System (MTS) is complex, decentralized, and made up of an array of interdependent components, including navigable waterways, ports, and harbors, and intermodal connectors. There is also a complex array of federal agencies involved in various aspects of MTS. This conference will focus on research and development needs to support the strategic plan of the Committee on the Marine Transportation System and on how best to coordinate the research and development activities of these federal agencies, with input from state, regional, and local entities and the private sector. | http://www.TRB.org/conferences/2010/MTS |
| September 23-24, 2010 | Global Greenship | Washington, DC | This Marine Log conference and expo explores how the marine industry is complying with the latest environmental regulations, both on board and ashore. | http://www.marinelog.com/DOCS/Conf.html |
| October 6, 2010 | Pacific States/British Columbia Oil Spill Task Force Annual Meeting | Honolulu, Hawaii | The Oil Spill Task Force Members will host a one-day Annual Meeting focused on a central theme to be announced here. The Meeting will include updates from state, provincial, and federal agencies and a review of Task Force activities and regional spill data for 2009. | FOR EVENT & HOTEL INFO: http://oilspilltaskforce.org |
